

2. Involuntary Unemployment

It refers to a situation in which the persons are interested to work, but the jobs are not available. *Under this, there are various categories of unemployment*

- **Structural Unemployment** It refers to a mismatch of job vacancies with the supply of labour available, caused by shifts in the structure of the economy.
- **Disguised Unemployment** This is a situation in which more people are available for work than shown in the unemployment statistics.
- **Open Unemployment** It is a condition in which people have no work to do. They are able to work and are also willing to work, but there is no work for them.
- **Seasonal Unemployment** It is on account of the seasonal nature of the productive activities i.e. some productive activities are carried out only for certain duration of a year.
- **Cyclical Unemployment** This type of unemployment is due to the recession in the economy. This type of unemployment is prevalent in the developed countries. This is also known as **Keynesian Unemployment**.
- **Frictional Unemployment** It occurs when a worker is shifting from one job to the other. It is a temporary phenomenon.

WELFARE PROGRAMMES AND SCHEMES

Indian state is a welfare state, which takes steps to do away the human sufferings and provides an infrastructure that is conducive to development. The Indian Government, since Independence, has been launching various multi-dimensional social welfare programmes.

Rural Development Schemes

Rural development schemes are as follows

Pradhan Mantri Gramin Digital Saksharta Abhiyan (PMGDISHA)

PMGDISHA was launched on 8th October, 2017. It aims at imparting digital literacy to citizens in rural areas free of cost. It aims to provide access to information,

knowledge, education and healthcare. It will create avenues for livelihood generation and financial inclusion through digital payments and help bridge the digital divide.

Deendayal Upadhyay Gram Jyoti Yojana

This scheme is designed to provide continuous power supply to the entire rural India. It is one of the flagship schemes of power ministry and will facilitate 24x7 supply of electricity. This scheme will replace Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY) but features of RGGVY have been subsumed in this scheme. Major component of this scheme includes separation of agriculture and non-agriculture feeder facilitating judicious supply of electricity to consumers in rural areas.

Sansad Adarsh Gram Yojana

It is a rural development and cleanliness programme broadly focusing upon the development in the villages, which includes social development, cultural development and spread motivation among the people on social mobilisation of the village community.

The goal is to develop three Adarsh Grams by March 2019, of which one would be achieved by 2016. Thereafter, five such Adarsh Grams (one per year) will be selected and developed by 2024.

MGNREGA

The National Rural Employment Guarantee Act (NREGA) was enacted in 2005. It was implemented in three phases, starting with 200 districts on 2nd February, 2006 to cover the whole country by 2008.

On 2nd October, 2009, it was renamed as Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). India's rural employment guarantee programme MGNREGA has been ranked as the world's largest public work programme.

The features of MGNREGA are as follows

- It seeks to provide at least 100 days (150 days for tribals) of guaranteed wage employment in one financial year to at least one adult member of every rural household who volunteers to do unskilled manual work.
- At least 33% of the beneficiaries are to be women.
- Originally, it promised a wage rate of ₹ 100 per day. From January, 2011, wages have been linked to increase with Consumer Price Index for Agricultural Labour (CPI-AL) for each state.
- It provides time bound employment guarantee and wage payment within 15 days.

Urban Development Schemes

The urban development schemes are as follows

Heritage City Development and Augmentation Yojana (HRIDAY)

Union Government has launched a Heritage City Development and Augmentation Yojana (HRIDAY) scheme to preserve and rejuvenate the rich cultural heritage of the country. The scheme aims to preserve and revitalise soul of the heritage city to reflect the city's unique character by encouraging aesthetically appealing, accessible, informative and secured environment.

AMRUT

Under Atal Mission for Rejuvenation and Urban Transformation (AMRUT), the government is targeting 500 cities. It aims to transform cities and towns into efficient urban living spaces with special focus on a healthy and green environment for children.

500 cities and towns will be selected on the basis of population i.e. one lakh and above, while the other criteria of selection will apply for certain locations like tourist popularity, certain popular hill towns and some selected islands.

Social Security Schemes

Social Security Schemes are schemes imposed and controlled by government units for the purpose of providing social benefits of particular sections of the community.

The social security schemes are as follows

Pradhan Mantri Vaya Vandana Yojana for Senior Citizens

The Pradhan Mantri Vaya Vandana Yojana (PMVVY) was launched on 22nd July, 2017. It is a pension scheme exclusively for senior citizens aged 60 years and above. Under this scheme, senior citizens will get a guaranteed interest of 8% for 10 years depending upon the investment made by them.

Tele-Law Initiative

‘Tele-Law’ Initiative was launched in collaboration with the Ministry of Electronics and Information Technology on 12th June, 2017. The aim of this scheme is to provide legal aid services to the marginalized communities and citizens living in rural areas through the Common Service Centres (CSC) at the Panchayat level, spread across the country.

Inclusive India Initiative

The conference “Inclusive India Initiative: Towards an Inclusive India” for Intellectual and Developmental Disabilities (IDDs) was launched on 6th June, 2017. The initiative is specifically catering to persons with intellectual and developmental disabilities; with an objective to include these people in the mainstream and in all important aspects of social life.

Rashtriya Vayoshri Yojana

The Union Ministry of Social Justice and Empowerment has launched Rashtriya Vayoshri Yojana in Nellore District of Andhra Pradesh on 4th April, 2017. The scheme aims at providing physical aids and assisted-living devices for senior citizens belonging to Below Poverty Line (BPL) category. The scheme will

be distribute free of cost physical aids and assisted-living devices for senior citizens belonging to BPL category in Camp mode.

Pradhan Mantri Jeevan Jyoti Bima Yojana

The PMJJBY is available to people in the age group of 18 to 50 and having a bank account. People who join the scheme before completing 50 years can, however, continue to have the risk of life cover upto the age of 55 years subject to payment of premium. Aadhar would be the primary Know Your Customers (KYC) for the bank account.

Pradhan Mantri Suraksha Bima Yojana

Under PMSBY, the insurance subscriber will get annual life insurance in case of accidental death, partial disability or full disability. The insurance is available to any person in the age group of 18 to 70 years. For accidental death and full disability ₹ 2 lakh and for partial disability ₹ 1 lakh will be provided.

Atal Pension Yojana

The Atal Pension Yojana (APY) will focus on all citizens in the unorganised sector, who join the National Pension System (NPS) administered by the Pension Fund Regulatory and Development Authority (PFRDA) and who are not members of any statutory social security scheme. The minimum age of joining APY is 18 years and maximum age is 40 years. Therefore, minimum period of contribution by the subscriber under APY would be 20 years or more. This scheme is mainly targeted at unorganised sector workers.

Health Oriented Programmes

‘Swasth Bachche, Swasth Bharat’ Programme

This programme was launched on 22nd August 2017. The programme will provide a comprehensive and inclusive report card for children covering all age groups and children of different abilities. It will make students, teachers and parents aware about the importance of good health and fitness and encourage 60 minutes of play each day.

Intensified Mission Indradhanush

The Union Ministry of Health and Family Welfare has launched Intensified Mission Indradhanush (IMI) on 8th October 2017 to accelerate full immunization coverage to more than 90% by December 2018. Through this programme, Government aims to reach each and every child under two years of age and all those pregnant women who have been left uncovered under the routine immunisation programme.

NITI Aayog’s SATH Programme

National Institution for Transforming India (NITI) Aayog’s SATH (Sustainable Action for Transforming Human capital) programme was launched on 22nd September 2017. The SATH programme aims to provide structured support to Assam in identifying key health priorities and implement the solutions towards transforming the health and improving the well-being of people of state.

Kilkari Project

The government launched Kilkari (literally baby noises), a mobile voice message service that delivers weekly messages to families about pregnancy, family planning, nutrition, childbirth and maternal and childcare. The Bill and Melinda Gates Foundation has provided the mobile phone application for Kilkari and mobile academy; the latter is a 240-minute free training module for ASHAs.

In the first phase, the Kilkari application is expected to benefit 1.84 crore pregnant women/newborns in Jharkhand, Odisha, Uttar Pradesh, Uttarakhand and in some districts of Madhya Pradesh and Rajasthan.

Mission Indradhanush

Mission Indradhanush aims to achieve full immunisation coverage for all children by 2020. The mission aims to cover all those children who are either unvaccinated or are partially vaccinated against seven vaccine preventable diseases including diphtheria, whooping cough, tetanus, polio, tuberculosis, measles and hepatitis-B.

Under the programme, 201 high focus districts in the country having nearly 50% of all unvaccinated or partially vaccinated children have been identified and will be covered in the first phase of the mission.

National Ayush Mission

The basic objective of National Ayush Mission is to promote AYUSH medical systems through cost effective AYUSH services, strengthening of educational systems, facilitate the enforcement of quality control of Ayurveda, Siddha, Unani and Homeopathy drugs and sustainable availability of raw materials for drugs. It contemplates establishment of a National Mission as well as corresponding missions at state level.

Women Empowerment Programmes

Empowerment of women is a major social phenomenon which requires an understanding of its multi-dimensional influence, including our family structures and units.

'Beti Bachao Beti Padhao' Scheme (BBBP)

Alarmed by sharp decline in child sex ratio, the government has introduced Beti Bachao, Beti Padhao (BBBP) programme in 100 gender critical districts. The overall goal of this scheme is to celebrate the girl child and enable her education. It aims to prevent gender biased sex selective elimination, ensure survival and protection of the girl child and ensure education of the girl child. The Beti Bachao Beti Padhao initiative has two major components— mass communication campaign and multi-sectoral action in 100 selected districts.

National Mission for Empowerment of Women (NMEW)

This mission aims to achieve holistic empowerment of women through convergence of schemes of different ministries/department of Central and State Government. It aims to strengthen the conceptual and programmatic basis of women centric schemes implemented by ministry of women and child development, other ministries and State Government with the mechanism for convergence.

Ujjawala Scheme

It is a comprehensive scheme for prevention of trafficking and rescue, rehabilitation and re-integration of victims of trafficking for commercial sexual exploitation. The objective of the scheme include social mobilisation and involvement of local communities, awareness generation programmes, generate public discourse through workshop and seminars. Target group include women and children who are vulnerable for trafficking for commercial sexual exploitation.

Swadhar Scheme

The Swadhar Scheme was launched by the Union Ministry of Women and Child Development in 2002 for rehabilitation of women in difficult circumstances. The scheme provides shelter, food, clothing and care to the marginalised women/girls who are in need.

The beneficiaries include widows deserted by their families and relatives, women prisoners released from jail and without family support, women survivors of natural disasters, women victims of terrorist/extremist violence etc.

The implementing agencies are mainly NGOs. An Evaluation Study conducted through Centre for Market Research and Social Development to assess the performance of the scheme observed that the scheme is successful for which it was formulated/implemented.

Education Oriented Programmes

The education oriented programmes are as follows

"JIGYASA" – Student-Scientist connect Programme

This programme has been launched by the government on 7th July, 2017. The programme would be implemented by the Council of Scientific and Industrial Research (CSIR) in collaboration with Kendriya Vidyalaya Sangathan (KVS). The main focus of the programme is to connect school students and scientists as well as to extend student's classroom learning to a very well-planned research laboratory based learning.

Global Initiative of Academic Network Planning (GIAN)

GIAN aims at tapping the talent pool of scientists and entrepreneurs to engage with the institutes of higher education in India, to augment the country's existing academic resources, accelerated the pace of quality reforms, and further strengthen India's scientific and technological capabilities.

Nai Manzil Scheme

Under the scheme, girls from minority communities will be imparted three-month skill development training in seven identified sectors relevant to the region. It is a bridge course to fill the academic and skill development gaps of the deeni Madarsa passouts with their mainstream counterparts. It will be introduced in all Madarsas in phased manner.

ACCREDITED SOCIAL HEALTH ACTIVISTS (ASHAs)

ASHAs are community health workers instituted by the Government of India's Ministry of Health and Family Welfare (MoHFW) as a part of the National Rural Health Mission (NRHM). The mission, begun in 2005, full implementation, was targeted for 2012. Once fully implemented there would be an ASHA in every village in India, a target that translates into 250000 ASHAs in 10 states. ASHAs are local women trained to act as health educators and promoters in their communities.

Other Programmes

Pradhan Mantri LPG Panchayat

Country-wide Pradhan Mantri LPG Panchayat scheme was launched on 22nd September, 2017 to distribute LPG connections among rural areas where conventional fuel is used for domestic purposes. It is backup scheme to existing Pradhan Mantri Ujjwala Yojana.

Sampoorna Bima Gram (SBG) Yojana

It was launched to expand coverage of Postal Life Insurance (PLI) in a bid to provide affordable life insurance services to people particularly those living in rural areas. Under SBG Yojana, at least one village (having a minimum of 100 households) will be identified in each of revenue districts of country to cover all households of identified village with minimum of one RPLI (Rural Postal Life Insurance) policy each.

Saubhagya Scheme

Sahaj Bijli Har Ghar Yojana –“Saubhagya” was launched on 25th September, 2017 with an aim at providing last mile electricity connectivity to all rural and urban households. Under the scheme, government will provide free electricity to all households identified under Socio-Economic and Caste Census (SECC) data 2011.

Mentor India Campaign

The National Institution for Transforming India (NITI) Aayog has launched Mentor India Campaign on 22nd August, 2017. It is a strategic nation building initiative to engage leaders for guiding and mentoring students at Atal Tinkering Labs. The Mentor India Campaign aims at maximising the impact of Atal Tinkering Labs by engaging leaders who will nurture and guide students in the Atal Tinkering Labs.

National Biopharma Mission

The Union Ministry of Science & Technology has launched National Biopharma Mission on 1st July 2017. It is a first ever Industry-Academia mission to accelerate biopharmaceutical development in India. Under this

mission, the ministry also launched Innovate in India (i3) program to create an enabling ecosystem to promote entrepreneurship and indigenous manufacturing in the sector.

Pravasi Kaushal Vikas Yojana (PKVY)

It is a skill development programme launched on 9th January, 2017. It is targeted at Indian youth seeking overseas employment to make India the Skill Capital of the World. PKVY will provide training and certify Indians who are seeking overseas employment in selected sectors that have high demand in the global labour market in line with international standards.

Pradhan Mantri Yuva Yojana

This scheme was launched to scale up an ecosystem of entrepreneur for youngsters. It will provide entrepreneurship education and training to over 7 lakh students in 5 years through 3,050 institutes. It will provide easy access to information and mentor network, incubator, credit and accelerator and advocacy to create a pathway for the youth.

Urja Ganga Yojana

It is the highly ambitious gas pipeline project in Varanasi, Uttar Pradesh. The gas pipeline project aims to provide Piped Cooking Gas (PNG) to residents of the Eastern region of the country and CNG gas for the vehicles.

Udan Scheme

Regional Connectivity Scheme (RCS)-UDAN (Ude Desh ka Aam Nagrik) scheme was launched on 21st October, 2016. It will provide connectivity to un-served and under-served airports of the country. The primary objective of RCS is to facilitate and stimulate regional air connectivity by making it affordable.

Pradhan Mantri Ujjwala Yojana

The objective of the scheme is to provide cooking gas connections to 5 million beneficiaries below the poverty line in the next 3 years (till the year 2019).

Main objectives of this scheme are as follows

- Free LPG gas connection in the name of the female members. It will be a cylinder and regulator.
- The scheme will include the rural and urban BPL family. ₹ 1600 will be sent to Pradhan Mantri Jan Dhan Yojana bank as subsidies.

Ujala Yojana

The UJALA scheme is being implemented by Energy Efficiency Services Limited (EESL), a joint venture of PSUs under the Union Ministry of Power. The scheme will help reduce electricity bills of consumers, contribute to the energy security of India and also help in environment protection. The main motive of this policy is energy efficiency in the country. Consumers can buy the bulbs from distributor by showing any identification card.

POPULATION

Population is the dynamic factor of an economy. The growth of an economy is determined on the basis of development level of masses.

DEMOGRAPHY

- Demography is a statistical study of human population. *There are four stages of the demographic transition*
 - i. The first stage, birth and death rates are both high, population growth is slow and fluctuating.
 - ii. In the second stage, birth rate remains high, death rate falls. Population begins to rise rapidly.
 - iii. In the third stage, birth rate starts to fall, death rate continues to fall. Population continues to rise.
 - iv. In the fourth stage, birth and death rates both are low. Population is steady or declining. It is called a stage of stationary population.
 - v. The period 1911-1921 is known as the great divide in the demographic history of India.

Census of India

We got the evidence of Census in India from Kautilya's Arthashastra. During the Mughal era, 'Ain-e-Akbari', written by Abul Fazal also mentions about census. Sequential census was started by Lord Rippon in the year 1881. Since then, after every ten years, the work of census is undertaken by the Government of India.

Census of India, 2011

- The Census 2011, was the 15th National Census of India (since 1872) and 7th Census after Independence. The motto of census 2011 was 'Our census, Our future'.
- Total Population - 1210.19 million
- Males - 623.7 million (51.54%)
- Females - 586.46 million (48.46%)
- Population of 0-6 age group - 164.4 million
- Literacy - 74.04%
- Decadal Growth Rate - 17.64%
- Population Increase (2001-2011)- 181 million
- Sex Ratio - 943
- Population Density - 382

AGRICULTURE

- Agriculture is the largest sector of the Indian economy and has a crucial role to play in the country's economic development by providing food, raw materials and employment to a very large proportion of population, capital for its own development and surpluses for national economic development.
- This is the biggest unorganised sector of the economy accounting for more than 90% share in total unorganised labour force (93% of the total labour force of the economy i.e. 39.7 crore, is employed in the unorganised sector).

Importance of Agriculture in Indian Economy

Agriculture is an important sector of around Indian economy. It is the spinal cord of the Indian economy. Around 48.9% of labour force is working in this sector. *Importance of agriculture in Indian economy can be analysed by the following points*

Contribution of Agriculture in National Income

Agricultural sector contributes a significantly large share to the national income of India. However, it has come down from as high as 56% during the 1950s to 13.7% in 2012-13 and is projected to go further down in immediate future.

Contribution of Agriculture in Employment The share of agriculture has been falling in the country's gross income while industrial and service sectors' shares have been on a

rise constantly. But from the livelihood point of view, about 48.9% people of India depend on agricultural sector. The sector, thus, presents challenging opportunities for the plant farmers in India, as much as these workers represent an enormous pool of labour that can fuel labour intensive industrialisation over the coming decades.

Green Revolution

- The introduction of high-yielding varieties of seeds after 1965 and the increased use of fertilizers and irrigation are known collectively as the **Green Revolution**, which provided the increase in production needed to make India self-sufficient in foodgrains.
- The term 'Green Revolution' is a general one that is applied to successful agricultural experiments in many third world countries. It is not specific to India, but it was most successful in India.
- *There were three basic elements in the method of the Green Revolution*
 - i. Continued expansion of farming areas.
 - ii. Double-cropping existing farmland.
 - iii. Using seeds with improved yields.

Second Green Revolution

- Second Green Revolution consist of a number of different programmes working towards the same goals. *Some of the initiatives, which will help in this direction are as follows*
 - Increasing crop yields in Eastern states.
 - Organic farming and contract farming.
 - Amending the Agricultural Produce Marketing Committee (APMC) Acts.
 - Investing in research to drought proof crops as well as to tackle climate change.
 - Use of plant breeding and biotechnology.
 - Rainwater harvesting and watershed development.
 - Improving credit availability.
 - Refocusing on land reforms.
 - Improving soil quality and reclaiming degraded land.

MAJOR AGRICULTURAL REVOLUTIONS

Green Revolution	: Cereals, wheat and leguminous plants
White Revolution	: Milk and dairy products
Silver Revolution	: Egg and poultry
Yellow Revolution	: Edible oil
Blue Revolution	: Fishery
Pink Revolution	: Prawns/Meat processing
Golden Revolution	: Honey
Golden Fibre Revolution	: Jute
Silver Fibre Revolution	: Cotton
